Troubleshooting

- Is this light, is it splash-proof rated or can be used safely in the shower?
- This ceiling light is IP40 rated, dustproof but not waterproof. It is recommended for use in semi-indoor and indoor spaces such as foyers, staircases, storage rooms, closets, laundry rooms, checkrooms, etc.
- Do I need to install extra light bulbs?
- This ceiling light is LED type. It doesn't need extra bulbs. LED is the new technology to replace the traditional type of fluorescent bulbs.

What is the right lighting mode of this ceiling light?

The brightness of the light will become weaker, the light will become warmer, and the light output will become lower. The color temperature is 3000K and the brightness is 10%.

Can we turn on the light color temperature?

Of course, you can set the color temperature of your ceiling fixture from warm white to daylight white as desired. The color temperature is adjustable on the remote control 3000K-5000K.

What are the brightnesses of the brightness?

The brightness is 20%/50%/100% respectively. When you choose the right light mode, the brightness is 10% of the color temperature 3000K.

The dimmer can control this ceiling light?

The dimmer is 30 minutes/1s respectively, select the button on the remote control according to your need, after that, the light will turn on and the light will be dimmed.

Can one or more lights be paired with one remote control?

One remote control can control more than one light at the same time, this remote control is required to pair the code to the ceiling light. If the remote control is coded to another light, it cannot control the previously coded light.

Can we change the light color by the remote control?

This dimmable remote controlled ceiling light can remember your settings. The last time it was turned off, when you turn it on again, it returns your settings.

Can I install it myself, or do I need to hire a professional?

It can be installed by yourself. It's very easy to install, only 3 steps are needed to complete the installation [1] Turn off the switch and hand connect the wires. [2] Install the light fixture. [3] Connect the ceiling light to the mounting base.

How to ensure the color of lighting is the color I want? Please contact us for further assistance.

Can I add a defective lamp, how can I get a new one?

Thank you for your inquiry. It's our pleasure to help you. Please contact us for further assistance.
