Form 731 Confirmation Number: EA133144

Date of Original E-mail: 08/01/2012

During the sample evaluation at the FCC laboratory, we learned from the Alereon utility that the design also supports frequency hopping operations. Regardless the number of channels used in the hopping, this important transmitter characteristics should be described. Please amend the operational description.

<answer> pls see revised operational description which is uploaded to EAS today 8/2/2012

Please note that we have not received a response to our request for technical information dated June 26, 2012.

<answer>we addressed 6/26 RT, all revised files and answer were uploaded to EAS today 8/2/2012

Thanks,

UL CCS
