KT, I have started reviewing this application and find another problem. The documents show that you want to place the same FCC ID number on both the Wireless DVD player and the Wireless Speaker. Please note that these are 2 separate devices and thus can not have the same FCC ID number. There must be 2 separate FCC ID Certifications for these 2 separate devices. The documentation must be corrected to show 2 different FCC ID numbers.

Please let me know if you have any questions.

Best regards,

Chris Harvey

Dear Mr. Chris Harvey,
Hello,
I send the corrected report.
Best regards,
K.T. LEE

Charlie, I will get to this application by tomorrow morning. Please be aware that the grantee code A3L belongs to Samsung and the Grantee name you used is Bluetech. MET can not issue the Grant with this situation. The Grantee Code and the Grantee name must match. I will continue to review the documents while this is being corrected by you and KT.

Best regards,

Chris

Hi Chris,

As I heard, Mr. KTLee applied Bluetech FCC project to you on last Saturday. This is so urgent project.

Especially,

I like to ask you to review it urgently because this customer is so hard.

Please understand my situation.

After fixing my schedule to visit to MET, I will let you know.

Thanks,

Best regards,

Charlie
