Correspondence Reference No.: 20874
Request for Tech. Info.: 10/10/01

Dear Martin:

Transmitted herewith, on behalf of **Samsung Electronics Co., Ltd.** is an amendment provided in response to the request for technical information dated October 10, 2001.

1. We would like to inform you that the EUT was controlled by software internal to the phone and commands were entered via the keypad. Power levels before and after each SAR Test was recorded in the test engineer's notebook. Please find attached the test data.
2. Please find attached the right ear hotspot.
3. We would like to confirm the tissues dielectric parameters were measured values.

We trust this information is sufficient for the immediate grant of this application. If you have any further questions, please do not hesitate to contact us.

Randy Ortanez
President
