Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

12/30/2010

1. Please revise the PCE EMC report to include confirmation that, for radiated measurements, the EUT was placed in 3 orthogonal planes in an effort to maximize emissions.
2. Page 8/20 of the user's manual lists the minimum separation distance required for body-worn RFx compliance as 5 mm (0.5 cm), but, according to the SAR report and SAR test set-up photos, body SAR testing was performed at 1.5 cm. Please revise the distance listed in the user's manual to 1.5 cm.

The items indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
