SUBJECT: Samsung Electronics Co., Ltd.
FCC ID: A3LSP10WL
731 Confirmation No.: EA224566
Correspondence Reference No.: 23252
Request for Tech. Info.: 6/26/02

Dear Martin:

Transmitted herewith, on behalf of **Samsung Electronics Co., Ltd.** is an amendment provided in response to the request for technical information dated June 26, 2002.

EMC

1. Please find attached the TCB Grant for the host laptop.
2. Please find attached the users manual.
3. Please find attached the antenna specs.
4. We would like to confirm that the correct frequency range is 2412-2462 MHz. Please find attached the revised test report.
5. Please find attached the operational description
6. We would like to inform you that the output power was measured with a power meter.
7. Please find attached the revised test report showing compliance with the peak and average limits in the restricted band of 2483.5 – 2500 MHz.
8. Please find attached the revised test report with the revised test data.

SAR

1. Please find attached the operational description.
2. Please find attached the internal photo showing the antenna location and connections.
3. Please find attached the revised SAR test report.
4. Please find attached the revised SAR test report with the re-measured highest SAR configurations.
5. Please find attached the SAR Test Setup Photos.
6. Please find attached the edge-on configuration SAR test on the channel with the highest SAR.

We trust this information is sufficient to resolve FCC questions in this application. If you have any further questions, please do not hesitate to contact us.
