Dear Sir/Madam

Samsung Electronics Co., Ltd., headquartered at 416, Maetan-dong, Yeongtong-gu, Suwon-si, Gyeonggi-do, Korea, informs that WLAN function is only activated when customers want to transmit the data [pictures or files] to other object such as camera, TV or e-mail on WLAN mode.

In shooting or playback mode, when customer click WLAN icon, camera status is converted to WLAN mode and customer choose certain file. Also When data transferring is done and turns back to camera operating mode, WLAN is automatically turned off.

In conclusion, WLAN is never operated in normal camera mode like shooting, playback or others except data transmission mode.

FCC ID: A3LST80 / IC ID: 649E-ST80

Sincerely,

A handwritten signature in black ink, appearing to be "Sang Kyung" or "Peter Ra".

Sang Kyung (Peter) Ra / General Manager
