Subject: RE: TCB Certificate Application (Class II Permissive Change) - Model No : FB790G

I have reviewed the photographs and compared them to the original Certification. The PCBoard for the interface is significantly different. It appears not to meet the requirements for Class II permissive Change in accordance with FCC 2.1043. Please re-evaluate the changes and if you also agree, please submit this as a new application with new FCC ID number.

Best regards,

Chris Harvey

TCB Certificate Application (Class II Permissive Change) - Model No :
FB790G

Hi Chris !
How are you?

I apply for the TCB certification Class II Permissive Change about this model.

This class II permissive change certification of compliance is to apply adding of Video port part,
(Analog + Digital) type on the previous granted model FB790G, FCC ID: BEJFB790G, dated of Grant 05/8/2002.

EUT type : 17" Color CRT Monitor
Model No.: FB790G
FCC ID : BEJFB790G
Dated of Grant : May 8 2002
Change Parts :
- Video ports : Analog + Digital ports
* previous model has only analog port

Please, find attached files.
If any problem, contact me immediately.
Have a nice day~~

Best Regards
