RE: FCC ID: BEJGT405

Applicant: LG Electronics Inc.

Correspondence Reference Number: BEJ100221
Confirmation Number: 1Y1002250221-23
Date of Original Email: February 26, 2010

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. On pages 29 and 33-35 of the PCE EMC report the second plots are cut off. Please revise and resubmit.
→ [Please find the attachment.](#)
2. Test Set-up Photos cannot open. Please resubmit.
→ [Please find the attachment.](#)
3. FYI: the BT block diagram shown on p.1 of the BT operational description is a better block diagram than the one submitted as the BT block diagram. However, the block diagram in the operational description does not list the clock/oscillator values. In the future, please revise the block diagram shown in the BT operational description to list the clock/oscillator values, and use it as the BT block diagram, instead of the one submitted with this application.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
Senior Certification Engineer
Quality Manager
