Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. The operational description document provides information on EUT GPRS Class 12 capability but no GPRS data is provided in the SAR test report. Please address.

→ I confirm this model doesn't support GPRS capability.

2. The PCS1900 conducted power levels provided in the SAR test report are higher than the conducted target power range in the Tune-up procedure document. Please address.

→ In Tune-up procedure, I indicated the tolerance. I think it can cover this power variation.
