Correspondence Reference No.: 21299
Request for Tech. Info.: 11/20/2001

Dear Joe

Transmitted herewith, on behalf of LG Electronics Inc., is an amendment provided in response to the request for technical information dated November 20, 2001.

1. In order to remove the need to do calculations to determine the change in SAR levels caused by small changes in the tissue parameters, we re-measured the SAR with the proper tissue parameters with 15cm of liquid depth. Please find the attached SAR data for the worse case channel.
2. Please find attached the Z-scan plots.

We trust this information is sufficient to issue the grant as soon as possible. If you have any further questions, please do not hesitate to contact us.
