Dear Alan,

This application is only for "802.11b/g/n & WWAN function", and there is no other RF function in this case. If there is other RF module in this platform in the future, the relevant application and evaluation will be done at that moment.

Best Regards,

Gina Lo

Hi Gina,

From all related application documents we could find the relevant information about the other RF module (such as BT function) which is not included in this application, please address it.

Regards,
Alan Lane
