
Wireless Notices

In some situations or environments, the use of wireless devices may be restricted by the proprietor of the building or responsible representatives of the organization. Such restrictions may apply when:

- Using the wireless equipment on airplanes, or
- The risk of interference to other devices or services is perceived as harmful.

If you are uncertain of the policy that applies on the use of wireless equipment in a specific organization or environment (such as airports), you are encouraged to ask for authorization to use this device prior to turning on the equipment.

WARNING: Exposure to Radio Frequency Radiation

The radiated output power of this device is far below the FCC radio frequency exposure limits. Nevertheless, the device should be used in such a manner that the potential for human contact during normal operation is minimized. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna should not be less than 20 cm (8 inches) during normal operation.
