Short-Term Confidentiality Extension Request

To Whom It May Concern:

In accordance with 0.457 and 0.459 of CFR 47, LG Electronics Inc. requests an a 45-days extension of the short-term confidentiality for an additional 45 days for the test setup photos, external photos, internal photos, and user's manual of the application filing. We confirm that this device has not yet been marketed in the United States.

These documents contain detailed system and equipment descriptions and related information about the product, which LG Electronics Inc. considers to be proprietary, confidential, and a custom design and otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, LG Electronics Inc. feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

Sincerely,
