

Quick Start

Charge the sensor first

□ Open the App Store on your iPhone or iPad, search for Aspire Motion, and download and install the app.

Enter your username and password to log in to the APP

On the APP settings page, click "Device" to

automatically search for nearby sensors and pair them

Click "New Visitor" to create a new user profile and start the test evaluation

Wear a belt

Sensor direction:

1. The belt is fastened at the L5 level of the lumbar spine, with the image-facing side facing outward.
2. Label up (USB charging port facing down)

For any questions, contact WeCom customer service.

Quick Start

■ Charging the intelligent sensor

Open the App Store on your

iPhone or iPad, search for Aspire Motion, and download the app.

Enter your username and password to log in to the

On the APP settings page,

select "Device" to

automatically search for nearby sensors and pair them

Pay attention to the orientation of the sensor when wearing the belt

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause

harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
