Professional Installation Declaration Letter

FCC ID: 2AD5K-HC

To Whom It May Concern:

HC equipment controls the LED lights on cheering bands or cheering sticks.
The equipment is intended for use by those involved in planning and producing performances as cheering accessories.

Therefore, it is not available for retail or mail order sale to the general public; it is available only to authorized dealers or installers.

The equipment is installed and operated only during the performance period and will be removed after the performance.

To use this equipment, you must save the appropriate settings on a PC.

Prior knowledge of equipment installation and operation is required to connect it to HHA equipment at the performance venue.

Both the HC and HHA equipment must be initialized before reusing after use with HHA equipment.

Sincerely,

Contact Name: Yong-Ha Choi
Title: Engineer
