RE: CONFIDENTIALITY REQUEST For Smart Wireless Probe (2AHSR-WNR006)
To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the 1) schematic diagrams, (2) detailed block diagrams, (3) detailed operational descriptions required to be submitted with this application be permanently withheld from public review.

These documents contain detailed system and equipment description and related information about the product which Company name considers to be proprietary, confidential and a custom design and otherwise would not release to the general public. Since the design is a basis from which future technological products will evolve, Company name considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

Signature
Ralph N. Ten Bruin
Vice President, Global Product Compliance
