

Product Labelling

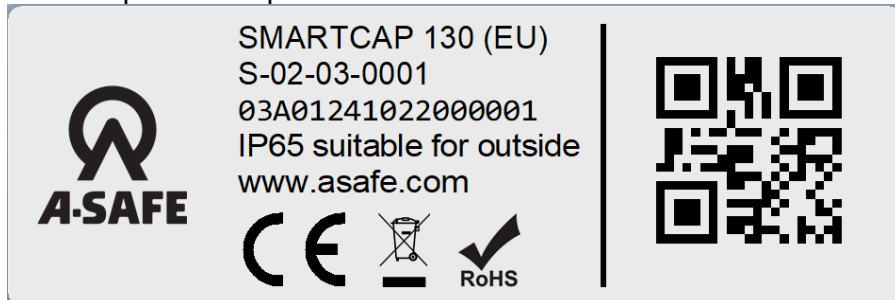

SmartCap 130 North American variants will be labelled with this label:

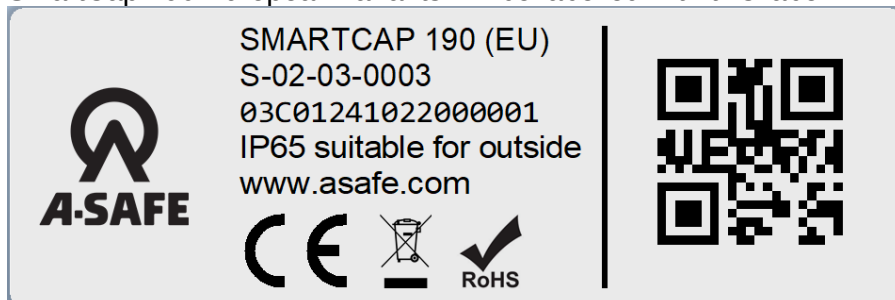

SmartCap 190 North American variants will be labelled with this label:

SmartCap 130 European variants will be labelled with this label

SmartCap 190 European variants will be labelled with this label

Note that these labels show certification marks that have not yet been approved. No marks will be shown on the label of production parts if the certification has not been granted. Instead, a blank space will be left.

The Label size is 60 x 20mm. All text is font Arial size 5pt or greater.

All certification icons are 5mm tall and width matches original image ratio.

The QR code encodes the device serial.
