

Product Similarity Declaration

Product name: Tattoo Stencil Printer, Wireless Tattoo Machine

Model: P84, H1, H2

We (Zhuhai Xprinter Electronics Technology Co., Ltd.) hereby state that all the models are electrically identical, including the same software parameters and hardware designs (such as circuit design, PCB layout, RF module/circuit, antenna type and antenna position, components on the PCB, etc.), the same mechanical structure and design (including product casing, materials, etc). The difference is merely the difference in model.

Note:

1. All models can use all product names,
2. All models can be equipped with Battery 1 or Battery 2,

Model Difference 1:

Battery 1

Battery 2

This Thermal label printer has two batteries. Battery 1 has a capacity of 2000mAh and Battery 2 has a capacity of 1500mAh. The only difference between them is the capacity, while the input specification parameters are the same, so it does not affect the radio frequency function.
