

How to locate FCC/IC ID and e-label in GameProofer Mobile Application

1. Open GameProofer Mobile Application in your mobile device.
2. Turn ON the GameProofer eTAG by pressing the Power Button. The Mobile App will then show the unit in “**Connected**” devices list (left side screenshot below).

3. Click the unit to open the device specific menu (right side screenshot above).
4. Select “**About device**” to find the Regulatory Information, including FCC and IC ID (highlighted with red rounded rectangle on right side screenshot above).
5. FCC and IC IDs will be listed in Regulatory information. Example screenshot of the existing device below. Data for eTAG will be listed as described in the text box on right hand side.

Data that will be shown for the new eTAG:

Regulatory information
