Cover letter for FCC application

Date: April 22nd, 2026

To Whom It May Concern:

ATN Corp is submitting models Thor 6 Mini, and TICO 6 for FCC certification. We are seeking an original certification under Part 15.247.

FCC ID: 2BKIH-THRM6

Applicable rule parts: FCC Part 15C

Type of equipment approval being sought: Original Certification

The Thor 6 Mini, and TICO 6 are thermal imaging devices equipped with an integrated 2.4 GHz Wi-Fi module compliant with IEEE 802.11 b/g/n standards. The radio is used for wireless communication with external devices such as smartphones or tablets for video streaming, device control, and data transfer.

The ThOR 6 Mini and TICO 6 utilize the same RF circuitry, PCB layout, Wi-Fi module, antenna. The only mechanical difference between the two products is the eyepiece assembly.

Thank you for your attention to this matter.

Sincerely,
James Munn
CEO
