Dimensions: 284(D) * 90(H) mm

3-IN-1 WIRELESS CHARGER

User Manual

Product Introduction

Thank you for purchasing our product Multi-function Wireless Charger. It uses high-end fast wireless charging chip and has a luxurious and compact design. It is compatible with any Qi-compliant mobile phone. Perfectly compatible with iPhone 12 and above, it is recommended not to use a protective case for magnetic mobile phones. If a protective case must be used, the protective case adds a magnetic suction function to the corresponding magnetic suction position of the mobile phone. Since the distance of magnetic suction is limited, the magnet has a better adsorption effect on the magnet. To ensure the best charging effect, the distance between the mobile phone and the wireless charging area of the product should be controlled within 2mm. Other mobile phones with wireless charging function need to be used with a magnetic mobile phone case, which effectively saves more time and improves your charging experience.

Product Outline

Applicable Devices

1. Devices with built-in quick charge/normal charge wireless receiver.
2. Devices with outer-face wireless charging receiver.
3. Devices with wireless charging receiver in its protection case .

Note: All devices must be Qi standard.

Instructions

1. After the wireless charger is connected to the AC power supply through the power adapter. The indicator light flashes 3 times alternately, and the green light is always on, entering the standby mode.

2. When the mobile phone or TWS is wirelessly charged, the indicator light is bright blue. When the watch is charged, the indicator light has not changed. (Frequent flashing of green and blue indicators indicates foreign object detection) (Note: If the watch has no electricity, charging will be slower, it is recommended that the watch is close to 10% please charge, when there is no electricity, charging is slower, you may need to wait for 1 hour, you need to have patience!)

Specifications

3-IN-1 WIRELESS CHARGER Model: HT-559 FCC ID: 2BKMMD-HT-559
Input: 5V=3A, 9V=3A Wireless Charging for Phone: 15W/10W/7.5W/5W
Wireless Charging for Earbuds: 3W Wireless Charging for Watch: 2W

Standard Accessories

- 1* Multifunctional Wireless Charger
- 1* User Manual
- 1* USB Cable

Attention

1. Please keep the charger away from water or other liquid.
2. If you need to clean the charger, please make sure it is power off.
3. Home Environment temperature remains 1°C-45°C degree.

FCC Statement
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).
