Assembly instructions

Remote control and dinosaur charging

The dinosaur and remote control is equipped with a built-in battery. It is recommended to use a 5V · 2A charging adapter(not included in package) and the charging cable included in the package for charging.

When charging, indicator of the vehicle and remote control lights up red, and it turns off when fully charged.

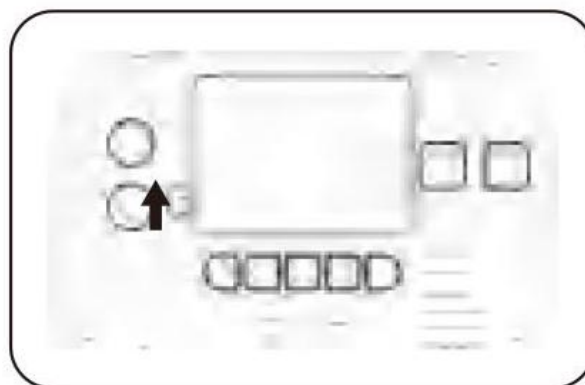

Charging Safety Instructions

1. Do not use incompatible chargers.
2. Charge under adult supervision. Do not charge on bed, sofa or flammable surfaces.
3. Unplug the power in time after fully charged.
4. Do not charge in high temperature, humid or closed environment. Stop charging if overheating, swelling or odor occurs.
5. Turn off the dinosaur and controller before charging.
6. Keep away from children during charging.
7. Do not disassemble or dispose of dinosaur at will.

Operation Guide

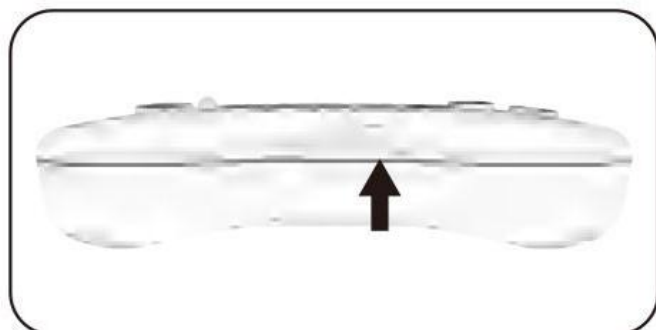

Step 1. Turn on dinosaur

Step 2. Turn on remote control

Note: The remote control will automatically pair with the dinosaur once powered on.

Step 3. Install the SD card

Please install an SD card into the SD card slot of the remote control before using it to take photo or video.

Supports up to 32GB SD card (not included).

Disclaimer and Safety Warnings

1. This package and instruction manual contain important information. Please keep it for future reference.
2. You are responsible for ensuring that this rc car will not cause personal injury or property damage to others.
3. Please strictly follow the instructions shown in the manual during operation to avoid possible injuries caused by the car colliding with your head, face, or body.
4. The company and distributors are not responsible for physical loss, damage, or injury caused by improper operation.
5. Users aged 8 years and older should use this product under the guidance of an adult. Children under 8 years of age are prohibited from using this product.
6. This product contains small parts. Please keep it out of the reach of children to avoid the risk of suffocation caused by accidental swallowing of parts.
7. It is strictly forbidden to use this product near roads or areas with heavy traffic to avoid accidents.
8. Do not disassemble or reassemble the remote-controlled car, otherwise it may cause malfunctions during operation.
9. Please connect to the designated power source that matches the product's specifications when charging.
10. When charging, please do so under the supervision of an adult. Keep away from any combustible materials during charging and keep it within your sight at all times while charging.
11. Keep the remote-controlled car as far away as possible from other electrical or electronic equipment, or areas with magnetic objects, to prevent mutual interference.
12. Keep your remote-controlled car within sight at all times during operation.
13. Never operate the remote-controlled car above the heads of a crowd.
14. Understand and comply with local operation restrictions and requirements.
15. Please ensure that the environment and equipment are in good condition before and after operation.
16. If the remote-controlled car is damaged or malfunctions, do not attempt to repair it yourself. Please contact our after-sales team to resolve the issue.
17. This product is equipped with a camera. You must respect the privacy of others when taking photos or recording videos. Recording or transmitting images of individuals without their consent may violate local, state, and federal privacy laws.
18. This remote-controlled car may be dangerous during use. Please ensure that it is far away from any people or spectators during operation.
19. Improper installation, poor use conditions, or unfamiliar operation may cause damage to the remote-controlled car or personal injury, and may also lead to accidents. Please pay special attention to operation safety and learn to identify more dangerous situations that may be caused by your own negligence.
20. Stay away from obstacles and people. During operation, this remote-controlled car may have slight changes in speed or sensitivity, which may cause potential hazards. Therefore, please stay away from crowds, buildings, trees, high-voltage lines and other objects. At the same time, please avoid using it under severe weather conditions such as heavy rain, thunderstorms, and strong winds to ensure the safety of users, spectators and surrounding property.
21. Keep away from humid environments. The interior of the remote-controlled car is composed of many precision electronic and mechanical parts. Therefore, please try to avoid any moisture or water entering the car body, otherwise it may cause malfunctions of mechanical and electronic parts and lead to accidents.
22. Only use the included parts for their intended purpose. Please use original parts for modification or maintenance to ensure operation safety. Please operate and use within the range allowed by the product function. The use of unapproved parts will invalidate the warranty. Do not use the remote-controlled car for any illegal purpose or beyond the scope specified by local laws and regulations.
23. The remote-controlled car owner shall not operate the remote control while under the influence of drugs or alcohol. Please operate this remote-controlled car according to your own physical condition and operation skills. Any fatigue, poor mental state, or incorrect operation may increase the risk of accidents.
24. Emergency Response: In the event of a remote-controlled car crash, fire, or battery leakage, immediately stop using the product, disconnect the power supply, and move to a safe distance. For battery leakage, avoid contact with the leaked liquid; if contact occurs, rinse the affected area with plenty of water and seek medical attention if necessary.
25. Compliance Disclaimer: This product complies with FCC Part 15 Class B requirements for export to North American markets. The manufacturer and distributors shall not be liable for any non-compliance risks, losses, or penalties caused by the buyer's failure to comply with the import regulations of the destination country/region, improper use beyond the scope of compliance, or unauthorized modification of the product. The buyer shall be solely responsible for ensuring that the product complies with the relevant laws, regulations, and compliance requirements of the destination country/region during import and use.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement in portable exposure condition without restriction.
