Blue	Charging
OFF	Fully Charged

Create an account in the app

1. Scan the QR code below or search for app in the Apple App Store or Google Play. Then download and install the app.

Gazing

Android/iOS
App Download

2. Open the app on your cellphone and tap Sign up.

3. Enter your email address, set a password, and tap Sign up.

The image shows the 'Welcome Sign up' screen of the Gazing app. At the top left, the text 'Welcome Sign up' is displayed. To the right is the Gazing logo, which consists of a stylized blue and green circular icon with the word 'Gazing' underneath. Below the header are three input fields: 'Email Address', 'Confirm Email Address', and 'Password'. At the bottom, there is a large blue 'Sign up' button and a smaller white 'Login' button.

4. After activating your account with the email link, log in to the app using your email and password.

The image shows an email verification screen. At the top, there is a blue header with a white envelope icon. Below the header, the text reads: 'We have sent an email to xxxxxxxx@xxx.com. Open your email and tap the link to verify.' Below this, it says: 'If you don't see the email, check your spam, or tap "Resend email" below.' At the bottom, there are two buttons: a white 'Resend email(55 s)' button and a blue 'Please Log in' button.

5. Re-open the app, enter your email address and password, and tap Log in.

Set up your trail camera in the app

1. Press the power button.
2. Open the Gazing app and sign in to your account.
3. Tap the “+” button in the bottom-right corner.

4. Scan the QR code on the device.

5. The app will display the message: “Make sure your device is turned on.” Tap “Yes.”
6. Your setup is complete.

Set up your solar panel

Step 1: Attach the mounting arm

Align the mounting arm with the back of the solar panel and secure it using a screwdriver.

Step 2: Prepare the wall

Use the mounting base to mark your drill points. Drill the holes, insert the wall anchors, and secure the base with screws.

Step 3: Mount the solar panel

Slide the mounting arm into the base until it clicks into place.

Step 4: Lock it in and aim

Push the arm down to secure the fit. Tilt the solar panel to capture maximum sunlight throughout the day.

Step 5: Connect the solar panel to the camera

Plug the solar panel cable into the charging port on the camera.

Set up your trail camera using the strap

Step 1: Thread the strap

Slide the mounting strap through the slots on the back of the camera. It clicks into place with a secure fit.

Step 2: Find the perfect spot

Choose a sturdy tree or post with a clear view of your target area. Wrap the strap around it—flat, snug, and ready.

Step 3: Lock it down

Pull the strap tight. Fasten the buckle to keep the camera steady and right where you want it.

Step 4: Frame your view

Adjust the camera to perfectly capture your target area. You're all set to start recording.

Frequently asked questions

1. How can I share the device with family members?

Open the app and tap on Settings. From there, you can share the device via QR code or email, and even transfer ownership of the device. The new user must first download the app and create their own account.

2. Why can't I change the settings?

Only the owner account can change settings, delete videos, and share the device. Shared accounts do not have these options.

3. How many users can view the device at the same time?

The owner account can share the device with up to 8 other accounts. Up to 3 users may view the video feed at once, but only 1 user can use the intercom.

4. Why is the camera offline?

If the camera is offline, it means it is disconnected. If the battery is depleted, you will need to recharge it.

5. How can I enable notifications on my phone?

- 1) Open the app. From the Device page, tap the Settings icon, then tap the Motion Detection icon. Here, you can choose whether to turn Motion Alerts on or off.
- 2) Open your phone's settings. Navigate to "App Management" and "Notification Settings," then locate the app. Ensure all permissions and notifications are enabled for the app.

6. Does this device come with a SIM card, or do I need to buy one separately?

The device has a built-in 4G LTE SIM card, so you don't need to buy or insert one yourself. It's ready to use right out of the box. The SIM card is not removable — it's built in to keep the connection stable and setup easy.

Contact us

If you require further assistance, feel free to reach out to our support team. Email us at service@gazing.cc or use the app's support feature. Please include your product's model and the retailer's name. Thank you.

FCC Statement

Product Name: 4G LTE Cellular Trail Camera

Model: Q82-4G

FCC ID: 2BR3K-SECCAM-Q82-4G

Power supply: Rechargeable Li-ion Battery DC 3.7V

Manufacturer: HK EKO ELECTRONICS LIMITED

Address: FLAT/RM 114/F HENLEY INDUSTRIAL CENTRE, 9-15 BUTTE STREET, MONG KOK KL, HONGKONG, China

Information to User

Important: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

— Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Proper Disposal Instructions

Old electrical appliances must not be disposed of together with the residual waste, but have to be disposed of separately. The disposal at the communal collecting point via private persons is for free. The owner of old appliances is responsible to bring the appliances to these collecting points or to similar collection points. With this little personal effort, you contribute to recycle valuable raw materials and the treatment of toxic substances.
