BLACK

Product parts:

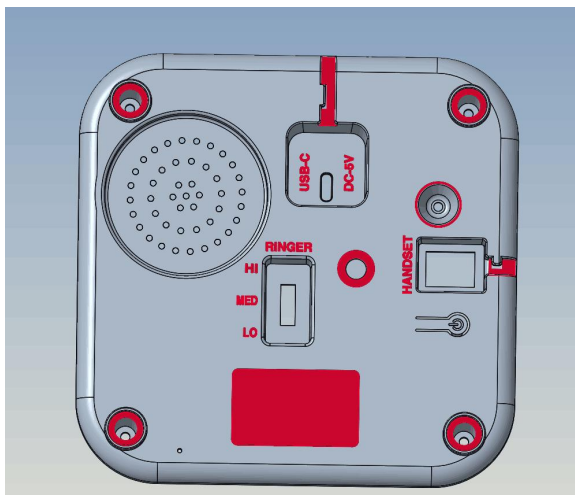

Phone base, handset, coil cord, USB charging line, usage manual.

Key description: 0(unpair/rematch bluetooth), 1, 2, 3, 4, 5, 6, 7, 8, 9, *(Voice Assistant), #(volume adjustment), H.F.  , POWER ON-OFF  (at the bottom)

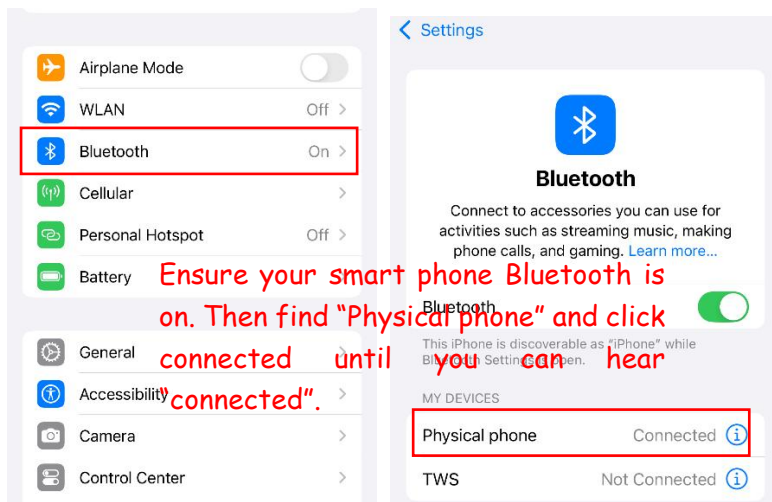

Make sure the coil cord is inserted into the handset socket on the back of the phone before using.
To charge the phone, insert the USB charging line to the USB-C socket. The LED will light up red.

Operation steps:**Step 1:**

Hold the  button for 2 seconds at the base backside until you can hear "Power On". The LED will light up blue.

**Step 2: Bluetooth connection:**

Ensure the bluetooth function in your smart phone is On. Please keep less than 30 meters between the smart phone and Bluetooth phone. Then find "Physical phone" and click connected until you can hear "connected". Then you have connected it successfully first time. Next time once the mobile is close to the phone, it can connect the Bluetooth automatically. (One smart phone can connect 5 pieces of Physical phones at the same time)

Step 3:

You can answer a call with Bluetooth phone by picking up the handset or pressing **HANDSFREE** button when a call is incoming.

You can dial a call by pressing number button in both handset mode and **HANDSFREE** mode.

In handset talking mode, press the **SPEAKERPHONE** button to SUPER-LOUD speaker volume in order to let people all around to hear the talking.

Handset Volume Adjustment:

In handset mode, hold the **#** button for 2 seconds to adjust handset receiving volume to HIGH, MIDDLE or LOW.

Speakerphone Volume Adjustment:

In handsfree mode, hold the **#** button for 2 seconds to adjust handsfree receiving volume to HIGH, MIDDLE or LOW.

Ringer Volume Adjustment:

The deep tone ringer can be set to LOW, MIDDLE or HIGH using the slide switch on the back of the phone.

Pick up the handset or press
the **HANDSFREE** button to
answer or dial a call.

Skype, Whatsapp and Wechat calls can also be answered by Physical phone.

To unpair/rematch bluetooth: long press the "0" button for 3 seconds to disconnect/reconnect.

Voice Assistant Function:

Pressing the * button on the Physical phone Device keypad activates the smartphone's voiceassistant. E.g. Siri(iphone)/Google Assistant(Android)/Bixby(Samsung). When used correctly, the user can say "Call [contact name]" and an outboundcall initiates to that contact. Replacing the handset in the cradle should end the chat with the voiceassistant.

Music Player Function: In on hook state, Physical phone device can be used as a music player through music playing APPs on a smart phone.

One Physical phone matching 2 smart phones at the same time:

Connect one smart phone first, and unpair by holding the 0 button. Then connect the other phone.

After that, reconnect the first smart phone by pointing Physical phone in bluetooth function, so that two smart phones can connect Physical phone at the sametime.

(Remark :This is a sample phone. Currently the pairing connection operation is complicated. It needs to be modified to allow two phones to connect normally within a certain period of time. CPU program to be improved.)

Product Specifications:

Product Trade Name: Bluetooth compatible landline phone

Family Name: RP001BK/RP001WH

Rating Input Parameters: DC 5V 500-3000mA

Extreme Temperature: 45°C max.

FCC:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ☐ Reorient or relocate the receiving antenna.
- ☐ Increase the separation between the equipment and receiver.
- ☐ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ☐ Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment
The device can be used in portable exposure condition without restriction.
