

## 1. Antenna Description:

|                 |                                                                                               |
|-----------------|-----------------------------------------------------------------------------------------------|
| Antenna type    | PCB antenna                                                                                   |
| Model           | L0001-Coil                                                                                    |
| Frequency range | 110KHz - 205KHz                                                                               |
| Manufacturer    | PRETTL Automotive Components(Wuhu)Co.,Ltd                                                     |
| Address         | No. 269 Guan DouMen Road, Jiu Jiang District industrial Park, Wu Hu City, An Hui 241000 China |
| ANT Peak Gain   | 0dBi                                                                                          |

## 2. Antenna Photo:

We statement that All measurements were performed radiated and therefore additional antenna gain documentation is not required.
