- After successfully switching the background color, short-pressing this color again will enter the static mode.

Attention

Read and follow all safety instructions:

1. Read and follow all safety instructions.
2. Connect the product to a ground fault circuit interrupter (GFCI) outlet when the product is used outdoors. If not provided, contact a qualified electrician for proper installation.
3. Keep the plug in a dry environment.
4. For input voltage, use an AC voltage within the specified range.
5. Do not install or place near gas or electric heaters, fireplaces, candles or other similar heat sources.
6. Do not secure the product's wiring with staples or nails, or place on sharp hooks or nails.
7. Do not allow the lamp to rest on a power strip or any electrical cord.
8. Unplug the product when you leave home, or when you go to bed at night, or when it is left unattended.
9. This is an electronic product - not a toy! To avoid the dangers of fire, burns, personal injury, strangulation and electric shock, it should not be played with or left in a place accessible to small children.
10. Do not use this product for anything other than its intended purpose.
11. Do not hang decorations or other objects from ropes, cords or light cords.
12. Do not cover the product with cloth, paper, or any material that is not part of the product when in use.
13. Do not close doors or windows over the product or extension cord as this may damage the insulation of the cord.

Instructions for use and care

- a. When this product is mounted on a tree, the tree should be well secured and stabilized. The same applies when mounted on an indoor or outdoor wall or elsewhere.
- b. Carefully inspect the product before use or reuse. Discard any product that has cut damage, frayed wire insulation or wires, cracks in the lamp base or housing, loose connections or exposed copper wires.
- c. When storing the product, carefully remove the product from the area in which it was placed, including trees, branches, or bushes, to avoid any undue stress on the product's conductors, connections, and wiring.
- d. When not in use, store neatly in a cool, dry place out of sunlight.

WARNING - To reduce the risk of fire and electric shock:

- a. Do not install in trees with needle or branch coverings of metal or materials that look like metal.
- b. Do not install or support wires in a manner that could cut or damage wire insulation.

Class B Disclaimer: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced technician for help.

⚠ WARNING	
• Ingestion hazard: This product contains a button cell or coin battery. • Death or serious injury can occur if ingested. • A swallowed button cell or coin battery can cause Internal chemical burns in as little as 2 hours. • Keep new and used batteries out of reach of children. • Seek immediate medical attention if a battery is suspected to be swallowed or inserted inside any part of the body.	

 The crossed-out wheeled bin symbol indicates that the item should be disposed of separately from household waste. The item should be handed in for recycling in accordance with local environmental regulations for waste disposal.

System Requirement

The minimum system requirement for mobile phones are iOS 12.0 and Android 7.0 Check the app store for the latest update to ensure the best performance.

Technical Specifications

Power supply: on labels

1.This product is only designed as an external decorative frame for lighting fixtures. It shall not be used as load-bearing or supporting structural parts for any other purposes.

2.Apply force gently during the whole opening and closing process. Repeated violent bending of the ribs will cause metal fatigue, which may easily lead to fracture and damage of the ribs.

3.Load bearing of the product is limited to the top hanging point only. It is strictly forbidden to hang heavy objects or large decorative components on the outside of the lamp frame.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
