

The 2D /3D cross-sectional radiation pattern of a serpentine antenna

The figure below shows the energy radiation cross, where different colors represent distinct frequencies. The frequency corresponding to each color can be determined based on the description in the lower-right corner of the graph.

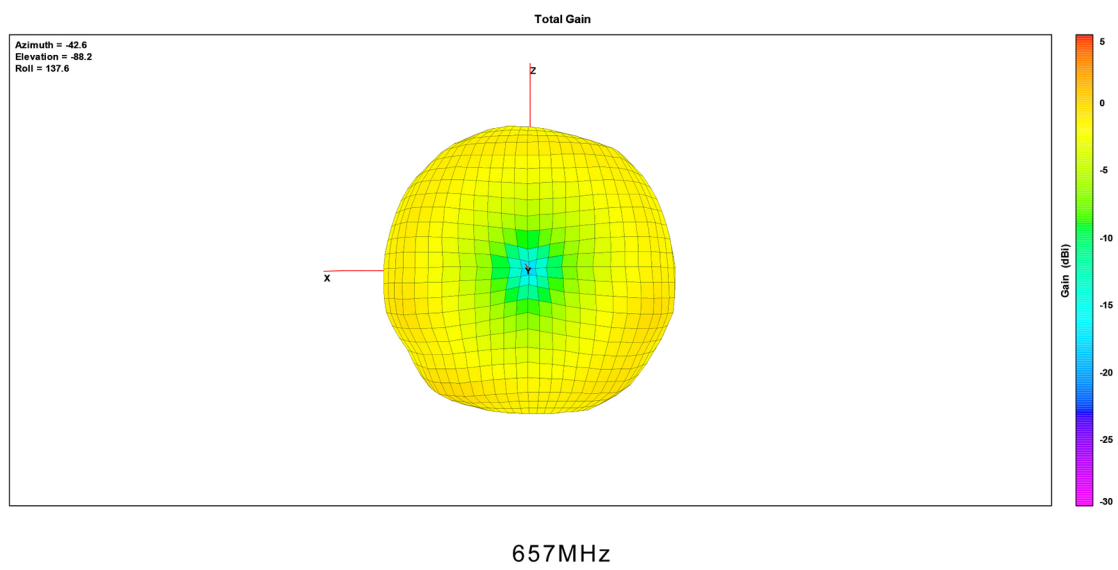

Annex B Figures

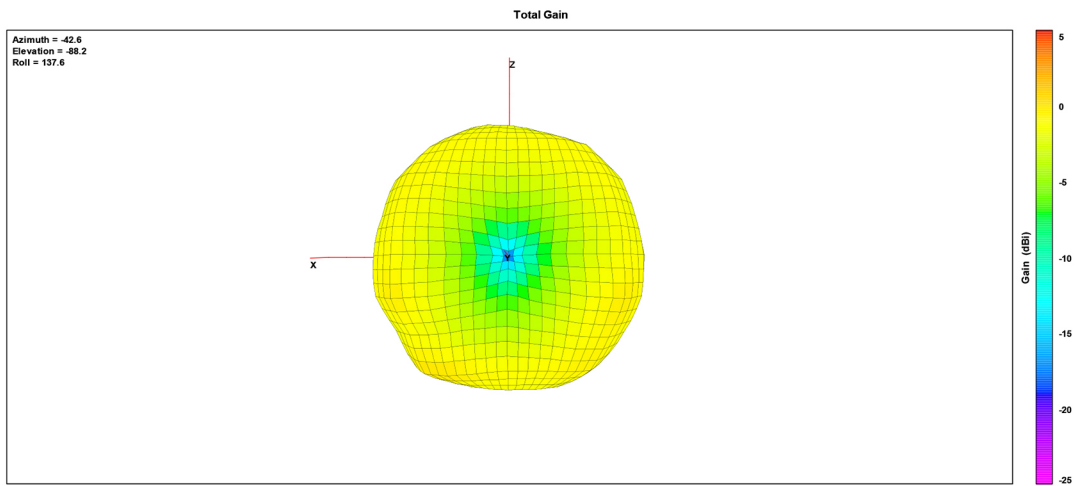

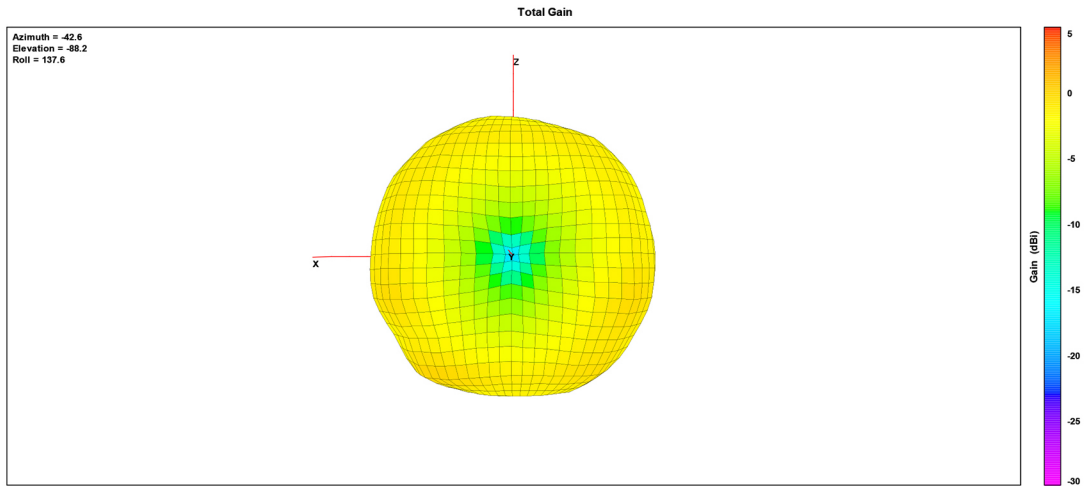

1. 2D Radiation Pattern

2. 3D Radiation Pattern

2. Gain

Frequency(MHz)	Gain (dBi)
657	0.26
657.5	0.28
658	0.28
659	0.31
659.5	0.34
660	0.36
661	0.39
661.5	0.40
662	0.38
662.5	0.37
663	0.35

4.Dimension
