

Guangdong Liwan Intelligent Electrical Appliance Co., Ltd.

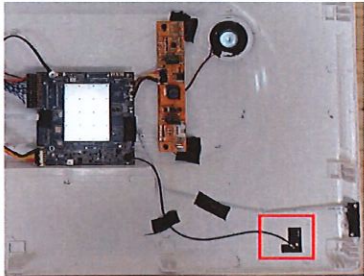

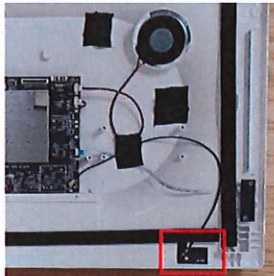

Product Name: DIGITAL CALENDAR

Model(s): LW-DC215, LW-DC156

We hereby declare that the models listed above are electrically and functionally similar and share the same RF design.

The LW-DC215 is selected as the representative model for compliance testing.

The differences between the models are as follows:

Item	Model (LW-DC215)	Model (LW-DC156)
LCD Panel	21.5-inch LCD	15.6-inch LCD
Display Interface	Dual LVDS	eDP
Display Power Design	12V DC input, separate backlight driver board with boost circuit	12V DC input, boost circuit integrated in LCD panel
PCB Assembly	PCB designed for 21.5-inch display configuration	Simplified PCB assembly with fewer display-related circuits and components
Mechanical Structure	21.5-inch enclosure	15.6-inch enclosure
Antenna Type	FPC Antenna	FPC Antenna
Antenna Specification	Same	Same
Antenna Installation Location	Different due to enclosure size and mechanical layout 	Different due to enclosure size and mechanical layout 
RF Module	Same	Same
Operating Frequency	Same	Same
RF Circuit Design	Same	Same

LW-DC215 represents the worst-case configuration due to its more complex display system and associated circuitry. Both models have been evaluated during compliance verification, and the above differences do not affect the RF characteristics of the device.

Yours sincerely,

Zongren Lai
