

# ANNEX

## EXHIBIT 1 - PRODUCT LABELING

### Proposed FCC ID Label Format

Specifications: The label shall be securely affixed to a permanently attached part of the device, in a location where it is visible or easily accessible to the user, and shall not be readily detachable. The label shall be sufficiently durable to remain fully legible and intact on the device in all normal conditions of use throughout the device’s expected lifetime.

### Proposed Label Location on EUT

|                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| <p>FCC ID Label<br/>Location</p> | <p>The image shows a black-outlined label format. It contains the following text in black: "Model:03060E", "IC:7497B-03060E", "FCC ID:PP203060E", and "R-R-R5M-3315". Below the text are four black-outlined symbols: the FCC logo (F, C, C), the IC logo (I, C), a crossed-out trash can symbol, and the CE mark. The label is shown attached to a device, which is represented by a simple black outline of a rectangular box with a vertical line on the right side.</p> |
